WORK EXPERIENCE

11/2015– Present **UI Designer**
Bluewire Technologies Ltd, Bristol, United Kingdom

About the Product

I am a member of the team developing web-based information system for NHS hospitals. The system enables healthcare professionals manage patient records, treatments and lab reports.

Responsibilities

- UI Design for various parts and features of the system (sketching wireframes and creating high-fidelity mockups).
- Managing UI resources, preparing outputs for developers and quality assurance of UI implementation.
- Supervision and quality assurance of UI implementations, coding of UI elements in JavaScript/HTML5/CSS3/LESS.
- Continuous collaboration within a team of product manager and front-end developers.

09/2009– 05/2015 **Visual Designer**
Computer Systems Unit at Masaryk University, Brno, Czech Rep.
(5 years 9 months)

Key accomplishments

- Created a large number of high quality digital resources (about 30 e-learning websites, 100 pieces of 2D/3D graphics and animations) which are used by people from different university departments.
- Established very good work relationships with more than 50 tutors from the university during creation of new e-learning materials for them.

Responsibilities

- Visual design, HTML/CSS coding and JavaScript programming of multimedia e-learning websites.
- Design, creation and processing of 2D/3D visualisations.
- Continuous collaboration within a specialized team.

01/2007– 08/2009 **Web Designer & Web Developer**
Self-Employed, Frenstat p. R., Czech Rep.
(2 years 8 months)

Key accomplishments

- Launched about 20 websites for mainly small business companies and non-profit organizations which increased their awareness and improved online promotion.

Responsibilities

- Design of information architecture, UI/UX design, HTML/CSS/JavaScript/PHP development.
- Deployment of CMS and specific plugins installation.
- Communication with clients and discussion about website structure, features and overall visual design.

Bretislav is very detail-oriented, skill-full, experienced and reliable Web Designer and Developer. He has always been passionate, team-oriented provided highly professional insights with outstanding sense to the UX and Design aspects of required front-end web-based solution. A top of that, Bretislav does not hesitate to take an extra mile to get deeply familiar with topic he is working - I can only recommend Bretislav as an valuable asset to any team.

Jitka Dankova (Mgr.)

Technical Team Coordinator in Computer Systems Unit at Masaryk University, Czech Rep.

Jitka was my main superior who also managed our 7 membered team.

contact: dankova@fi.muni.cz

In the years from 2009 to 2015 Bretislav worked for us as a technician and he was responsible for processing of multimedia educational tools for tutors of Masaryk University. Bretislav is an excellent team player, he was able to support colleagues in their ideas and he was able to tell them criticism appropriately and gently. He brought fresh design ideas and new technologies to the team. When needed, he did not hesitate to learn techniques of 3D animation and he excelled in this (for him) new field.
